PROF ALF COLLINS

Doctor, commissioner, researcher and clinical director for personalised care for the NHS

He has researched and published widely on self-management support, shared decision making, care planning, co-production, patient activation and patient engagement.

Alf has worked with others to develop a number of measures of person-centred care, including the 'clinician support for patient activation measure'.

He has a visiting professorship in person-centred care from Coventry University and Honorary Fellowships at the Royal College of Physicians and the Royal College of General Practitioners.

PAUL WHITTLESTONE

Global Director, IBI Healthcare+, London, UK

As Global Director of IBI Healthcare+, Paul Whittlestone leads a multidisciplinary team of experts in healthcare strategy, the design of healthcare buildings and infrastructure, and the application of intelligent systems to the delivery of healthcare solutions. This expertise is drawn from IBI offices around the globe and provides our clients with innovative solutions to the increasingly challenging problem of delivering high-quality, affordable and sustainable healthcare services. Paul has over 30 years of experience working on healthcare projects around the world. During this time he has been involved in several major clinical reconfiguration exercises across both whole healthcare systems and individual hospitals, as well as contributing to and leading on the investment of several billion USD in the

redevelopment of healthcare infrastructure, including major new hospital projects in the UK, Europe, North America, Australia and the Far East..
