

2022 Roadmap Clinical Supervisor Courses

Do you want to supervise and develop the existing and future

Primary Care workforce?

The HEE [Roadmap](#) provides a clear educational pathway from undergraduate to advanced practice for clinicians wishing to pursue a career in primary care.

HEE are running 2-day courses from April onwards to train roadmap supervisors to verify clinicians through the portfolio route described in the Roadmap. On completion you will become a recognised HEE Roadmap supervisor and be added to our regional and national supervisor directory.

To be eligible for the training course, you must be currently working in a Primary Care service in the South West of England (either NHS or external partners) as one of the following:

- You hold a full post graduate MSc, or are a full MACP member
- You are an FCP recognised by the HEE Centre for Advancing Practice
- You are an Advanced Practitioner recognised by the HEE Centre for Advancing Practice
- You are a GP

Courses take a maximum of 14 places and **you must be able to attend both days** to complete the training to be a recognised Roadmap supervisor.

To register your interest in courses for 2022 please follow this link: [RMSV](#)

For queries please contact – primarycareacademy.sw@hee.nhs.uk

This training course is free – attendance in agreement with line manager
