

# #KNOWvember Knowledge Cafe

Please join us to share knowledge around the following themes:

What does the ICS mean for me?

How can I incorporate quality improvement into my workflows?

How will I guard my own and my team's mental health this winter?

How do I reflect on professional practice?

What do I need from the Library & Knowledge Service?

We aim to collect and distribute the learning shared on the day.

Please join us at any time during the morning.

Refreshments will be provided.
