

Access a selection of flexible online learning modules commissioned and designed in collaboration with the seven regional NHS Leadership Academies to help support you on your leadership journey.

Explore key areas of leadership development including:

- Systems and Relational Leadership
- Leading Transformation for Integrated Care
- System OD and Transformational Change
- Leading Transition in Primary Care

How to access:

You can access the modules for **free** by registering for an account at the [Leadership Learning Zone \(LLZ\)](#)

Commitment required: The modules can be undertaken at a time and pace that is convenient or relevant to you.

Who are these modules for:

These modules are open to all colleagues from across the NHS, primary care, local authority, voluntary and independent sectors.

Download a certificate: Once a module is completed you can download a certificate of completion.

Module Feedback: It's our aim to continually review and add to the modules. Each module has a post module evaluation questionnaire. Please do provide feedback as we are keen to improve the content and to continue to curate and develop additional resources.

In addition, if you have resources, you think others would find valuable please do share with the leadership academy by emailing leadership.SW@leadershipacademy.nhs.uk.

Please visit our website [South West Leadership Academy](#) or scan the QR code for further information and additional resources

Leading Transformation for Integrated Care

7 modules

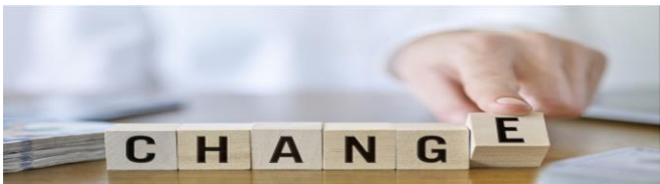

Based on insights and experience drawn from work with several Integrated Care Systems, these modules explore what partnership working looks like across teams and organisations, and what this means for leaders.

- Who leads in a system?
- Improving the health of our local communities
- Leading alongside your local communities
- Rethinking recovery – a systems perspective
- Collaborating within your neighbourhood/place
- System workforce innovation
- Humanising the machine

System OD and Transformational Change

5 modules

System leaders are increasingly required to facilitate transformational change in and across their system and organisations, often without formal power or direct authority. This series of bitesize online learning videos enhance and develop the skills needed to lead, influence, and challenge organisational and system transformation.

- Influencing without formal authority
- Challenging the status quo
- Releasing the potential of human systems
- Consulting mindset and skillset
- Self as courageous role model

Leading Transition in Primary Care

2 modules

These modules are for primary care Leaders who find themselves leading in the context of transition and change.

- Coping with today and planning for tomorrow
- Articulating the voice of primary care
